

Imam Khomeini

Public Warehouses and
Customs Services Company

Aiming to undertake unloading, loading and proficient warehousing operations in air transport sector, the complex was officially launched in December 2008.

Besides planning and carrying out operations at Imam Khomeini Airport, IPWCS was in charge of the management of Tehran Mehrabad Airport's customs since 1971 and has provided unloading, loading and warehousing services.

Accordingly, with the inauguration of Imam Khomeini Public Warehouses, near one of the major national projects in air transport industry after the Islamic Revolution, IPWCS's status was established as the leading tender of air cargo loading, unloading and warehousing services.

Currently, some 93 percent of the existing capacity in the air logistics industry is allocated to the company.
